Goldcrest Installation & Repair?**

FENSA Membership Number: 35112

**GOLDCREST
INSTALLATION & REPAIR**

Glazing and Roofline Specialists

FENSA is a government authorised Competent Person Scheme for the replacement of windows, doors, roof windows and roof lights in England and Wales against the relevant Building Regulations

FENSA members have completed over 13 million installations since 2002. Members are assessed for their ability to install replacement windows and doors in accordance with the relevant Building Regulations.

Benefits of using a FENSA member:

- Avoid registering your window / door installation with the local authority yourself. Not only is the FENSA approach much faster and easier – it is likely to save you hundreds of pounds
- Compliance with the Building Regulations without the added cost and time of arranging assessment by Building Control
- FENSA members can sign off their work without local authority involvement
- FENSA members are continually inspected by an independent accredited inspections body to ensure consistency with the relevant Building Regulations
- All FENSA members must provide homeowners with an Insurance Backed Guarantee (IBG) – a guarantee covering the installer's own guarantee or compliance with Building Regulations should they cease to trade
- As the market leader, FENSA is the largest and longest established Competent Person Scheme within the replacement window and door industry.
